SKILLS

Programming Languages

Visit MaxnelsonDevelopment.com for all information including my **GITHUB**

HTML CSS Javascript

jQuery Java, C#, C++, PHP

Very Strong Knowledge Of

Swift/iOS - Mobile with JSON

CollectionViews, Tableviews, Custom Cells, StackViews. Im great with JSON

Frameworks

Multipeer Connectivity iOS, Alamofire, mapquest.developer

Meetups, Hackathons, OpenSource

I go to meet ups 1-2 times a week

I've made great connections and this has taught me how to communicate and contribute to open source effectively

WORK HISTORY

Gadzoom.net

I am a web + iOS developer at Gadzoom.

On a typical day I deal with the following tech

HTML, CSS, JS, PHP, Swift, Xcode, PHPStorm

I started as a front end developer six months ago. This shortly became a back end position as I grasped some PHP.

I built their mobile app for iOS

I use their API to send and retrieve JSON data.

Extensive use with custom uitableviewcells and viewcontroller re-usage.
