## EDUCATION

### **Utah Valley University**

BS in Computer Science

CS GPA: 3.40

Graduating class of 2019

### **Timpanogos High School**

Graduating class of 2015

### **Technology Track**

Part time web development boot camp

HTML CSS Javascript.

jQuery, Angular, node, react

summer of 2016

## PERSONAL PROJECTS

### **College GPA Calculator 2016**

I have always created software during my free time. I bridged the gap between school and personal development with this project so I could improve my skills while finding a way to help me do better in school.

- Calculates GPA based on grade and credits
- is available on the iOS app store.
- 10,000+ downloads and a bit of revenue from google AdSense

### **College Grade Average Calculator**

- Calculates average grade based on a category weight. revenue from AdSense

## SKILLS

### **Programming Languages**

**HTML CSS Javascript**

**jQuery, Angular**

**Java, C#, C++**

**Swift/iOS**

### **Other**

Multipeer Connectivity iOS, Alamofire, mapquest.developer

### **Communication**

**I go** to meet ups 3-4 times a week I make connections which has benefited me. I believe this type of communication will benefit the company I work for next

**Eagle Scout - age 13**

## WORK HISTORY

### **Gadzoom.net**

I am a web developer at Gadzoom.

On a typical day I deal with the following tech

**HTML, CSS, JS, PHP, Swift.**

I work on a team of 5 people. I love it. Though I would really love a more structured job such as an internship as this job I work remotely.

**I am in the process of mobilizing their software for iOS**
